Google Images

To avoid blurry images use larger files

1. Search for images using Google images

2. Click the cog in the drop down select Advanced search

3. Scroll down to Then narrow your results by...

mage size:	any size	*
spect ratio:	any size	
2 7 8 64	Large	
colours in the image:	Medium	
type of image:	Icon	
region:	Larger than 400×300	
region.	Larger than 800×600	
site or domain:	Larger than 1024×768	
SafeSearch:	Show most relevant results	-
file type:	any format	•
usage rights:	not filtered by licence	*

Use the image size drop down menu and select Large and click Advanced Search

4. Select the image you want

5. Right click to either Save Image As or Copy Image
